Please fill out the form below to register and obtain access to our Genesis parent module that allows you to view student academic information about your child(ren). **This form needs to be completed, signed, and returned regardless as to whether you had a parent access account last school year or are new to the system.** If you have received multiple copies of this form, it is because you have children in multiple school buildings. You only need to complete one copy and **return it to your eldest child's homeroom teacher**. Your parent access account will be enabled in the next few weeks. Once created, you will receive an e-mail confirmation that will include your username, temporary password, and documentation on use of the system. Thank you very much for your participation in the support of your child(ren)'s academic success.
