We are pleased to offer LMS students access to their Genesis student information. Please note that you must have an active e-mail account to receive login information. You may not use your Lumberton Google account even though it looks like an e-mail address. This is because you cannot receive e-mail into your Lumberton Google account. This form needs to be completed, signed, and returned to the middle school main office. Once your account has been established in the system, you will receive an e-mail confirmation that will include your username, temporary password, and documentation on use of the system.
