

Are students at risk?

Sudden Cardiac Arrest Screening

October 20, 2018 starting at 9:00 a.m.

200 Trenton Road, Browns Mills, NJ 08015

According to the American Heart Association, Sudden Cardiac Arrest (SCA) usually strikes school-aged children without warning...and the results are usually fatal. Whether a student-athlete, member of the marching band, or member of the chess club, if your child has not had a cardiac evaluation, (s)he is at risk.

All Students
Ages 12 – 19

Must Register Online.
